What is Santa's top AI prediction for 2025?

Cue claims: guess the actor, complete the crossword

Santa Claus has found himself in the middle of a very modern Christmas conundrum. His trusty workshop elves have been experimenting with new technology, and they've created an AI assistant named "ClausBot" to help Santa streamline his holiday operations. However, in order to unlock the efficiencies of ClausBot, Santa has to prove just how well he knows everyone who has ever been on his nice and naughty list. He has drafted in Adarga and friends to help.

INSTRUCTIONS

ClausBot has used advanced AI to extract statements made by some of Santa's star-studded gift/coal recipients over the years. These include Hollywood actors, popstars, politicians, and historical icons. To help, you need to:

1. Identify the actors and figures behind the quotes below.
2. Put their surnames into the corresponding number in the crossword.

As a thank you, Santa has used his new-found AI knowledge to share his top prediction with you for 2025. To reveal the message:

1. Take the letters from the numbered greyed-out boxes in the crossword and write them in the corresponding numbered boxes beneath the crossword.
2. Use the remaining letters from all greyed-out boxes (you can use each letter multiple times) to fill in the blank spaces and uncover the hidden message.
